But recently we have got been getting a several questions wondering for assistance, therefore we down loaded it (through our Office 365 membership) and required a quick look nowadays.. Might 16, 2015 Last Nov (2014), Microsoft launched a new Mac edition of Outlook-oné that replaces View 2011 for Mac pc.. While some people are contacting this View 2015, or View 15, Microsoft will be simply calling it View for Mac, and it is certainly only obtainable to Office 365 subscribers.. We had place off looking at it since we hardly ever use Macs any more and none of our customers were wondering us about it.
